Corrects porosity and improves the feel of the hair

Hair treatment that promotes mirrored shine to the strands, gloss effect for all types of hair.

1 PRODUCT WITH 4 ACTIONS

Hair fiber straightening
Volume reduction
Acidification of curls
pH equalizer

ACTIVES

AÇAÍ AND TANNIN
combats free radicals that cause hair shaft aging by chemical, mechanical and environmental processes.

CREATINE
increases the density of the threads, intensely strengthens, corrects porosity, improving the sensorial and permeability of biocompatible actives with the capillary fiber.

COCONUT OIL
source of fatty acids and emollients, actives that retain natural moisture for longer, providing shine, softness and flexibility against breakage.
Hair with recovered shine and softness, protected from dryness and easier to detangle.

HOW TO USE

STRAIGHTENING

apply the product, no need to wash, let it act for 50 minutes. Rinse and dry and flat iron thin strands 10/15 times

VOLUME REDUCTION

Apply the product, no need to wash, let it act for 25 minutes and rinse. Dry and use the flat iron on each strands 5 times at medium temperature.

INDUCED ACIDIFICATION OF CURLS

Promotes more defined, shiny and soft curls. Wash your hair and apply Mask Nutre let it act for 5 minutes then rinse.

Apply Liquid Hair to the entire length of the strands, let it act for 20 minutes and rinse. Apply a thermal protector, we recommend Perfect Use due to its protein load. Make a brush aligned the wires. You can rinse right after the procedure or the next day.

PH EQUALIZER

procedure for hair that is elastic. With wet hair, apply to the strands and let it act for 15 minutes Massaging gently.

Then apply a moisturizing mask and finish as you wish.
